

Academic Success Center Conduct and Acceptable Use Policy

The Academic Success Center (ASC) programs and facilities including the Fiedler Learning Commons (FLC), Collaborative Learning Lab (CLL), Scholars Assisting Scholars (SAS), study rooms, computers and computer labs are administered by the College of Engineering to assist students enrolled in engineering. Students who use the Academic Success Center activities and spaces are expected to show professionalism and respect for others, and to follow the [Kansas State University Student Conduct Code](#) and the [Honor and Integrity System](#). Any disruption, obstruction of tutoring or behavior that interferes with student learning is considered a violation of the Kansas State University Student Conduct Code. Staff, student assistants and/or SAS tutors in the ASC, may request students who are causing disruptions or violating the conduct code to leave the facilities. Students who prevent others from learning will not be allowed continued access to the Academic Success Center programs and facilities. By using the Academic Success Center programs and spaces, students agree to adhere to the ASC Conduct and Acceptable Use Policy and acknowledge that a violation of this policy and/or other inappropriate behavior can result in dismissal from the facility and associated programs and activities.

Study Room and Computer Acceptable Use

Study rooms and computers are authorized for use by engineering students and staff for College of Engineering academic, research, organization, and work assignments only. Use of study rooms or computers for personal activities may result in loss of access. Please respect your fellow students and limit your time in this room and on the computers to non-personal use.
