## Summary of Courses Taught

List each course taught in reverse chronological order. Include the following information for courses taught by semester and year: course number, title, format, number of credit hours/contact hours, term, official course enrollment, percentage of course taught based on proportion of total student contact hours in course, and a brief explanation of role (if not solely responsible for course).

Do not include in this list independent studies, credit workshops, continuing education, or noncredit courses. These items may be included in the candidate statement on other contributions.
